

# BULL'S BLOOD BEET

BETA VULGARIS

A BEAUTIFUL, DARK LEAVED BEET THAT CAN BE ENJOYED FOR BOTH ITS TENDER YOUNG GREENS AND ITS SMALL, TASTY ROOTS, BULL'S BLOOD IS ALSO BEAUTIFUL INTERMINGLED IN THE LANDSCAPE. THE LEAVES DEVELOP INTO A DEEP, RUBY RED AS THE PLANTS MATURE. TO HARVEST THE IRON RICH GREENS, PINCH THEM OFF AT GROUND LEVEL, TAKING AS MUCH AS A THIRD OF THE LEAVES WITHOUT HARMING THE DEVELOPING ROOTS. THE ROOTS ARE BEST WHEN YOUNG, SO HARVEST EARLY, BUT IF YOU ALLOW AT LEAST ONE PLANT TO GO TO SEED, YOU WILL HAVE PLENTY OF SEED FOR SUCCESSIVE CROPS. ENJOYS THE COOLER WEATHER OF SPRING AND FALL.
