

# IRENE-TRAILING ROSEMARY

## ROSMARINUS OFFICINALIS 'RENZELS'

ONE OF THE PRETTIEST OF THE TRAILING SORTS OF ROSEMARY, 'RENZELS' IS A VIGOROUS PLANT THAT REACHES AROUND 2 FEET TALL BY 5-6 FEET ACROSS. DROUGHT, HEAT, AND DEER IMPERVIOUS, THE TRAILING SORTS OF ROSEMARY ARE WIDELY USED TO COVER BANKS AND OPEN GROUND IN THE SUNNIEST OF LOCATIONS. A FANTASTIC POLLINATOR PLANT, IT FEEDS BEES BY THE THOUSANDS WHEN IT BLOOMS DURING THE COOL SEASON WHEN LITTLE IS IN BLOOM FOR THOSE TINY, MOST PRODUCTIVE INSECTS. THIS CULTVAR BLOOMS HEAVILY THROUGHOUT THE WINTER AND INTO SPRING. THE BLOSSOM COLOR IS MORE SATURATED THAN THE AVERAGE TRAILING ROSEMARY; A VERY NICE VIOLET BLUE. AND AS IF THAT WEREN'T ENOUGH, THE EDIBLE LEAVES CAN BE USED FOR SEASONING IN ANY DISH THAT CALLS FOR ROSEMARY AND PRESERVED DRIED FOR USE IN THE KITCHEN.
