

PERENNIAL YELLOW FOXGLOVE

DIGITALIS GRANDIFLORA 'CARILLION'

NOT YOUR USUAL FOXGLOVE, CARILLION IS A TRUE PERENNIAL. THE COMPACT SIZE AND SOFT YELLOW COLOR OF THE FLOWERS MAKES IT EASY TO PLACE. GREAT IN A WOODLAND BORDER WHERE THE SUBTLE BLOOM COLOR COMBINES BEAUTIFULLY WITH ANYTHING. JUST LIKE OTHER FOXGLOVES, THIS ONE IS POISONOUS AND THEREFORE GOES UNBOtherED BY DEER. RESEEDS ITSELF READILY TO CREATE MORE PLANTS, WHICH CAN EASILY BE MOVED IN SPRING OR SIMPLY ALLOWED TO MAKE A BEAUTIFUL PATCH WHERE THEY GROW. THRIVES WITH REGULAR WATER AND ORGANIC SOIL. 14-16" TALL.

ZONES 2-9

PARTIAL SHADE
