

FLANNEL BUSH

FREMONTODENDRON CALIFORNICUM
X MEXICANUM 'CALIFORNIA GLORY'

ONE OF CALIFORNIA'S MOST BELOVED NATIVE SHRUBS, FLANNEL BUSH, ALSO KNOWN AS FREMONTIA, GROWS FAST TO FILL A LARGE SPACE. NEGLECT IT AND IT WILL REWARD YOU WITH GLORIOUS 2" + VIBRANT BLOSSOMS THAT GLOW YELLOW AND ORANGE AGAINST THE BLUE SUMMER SKY. CALIFORNIA GLORY IS A NATURAL HYBRID BETWEEN OURS AND THE MEXICAN SPECIES, THE RESULT OF WHICH IS A PLANT THAT IS A BIT EASIER TO CULTIVATE AND PRODUCES BIGGER, SHOWIER FLOWERS. COVERED IN FINE, SHARP HAIRS, IT REQUIRES GLOVES TO HANDLE, BUT IS VERY PRUNEABLE AND SO WORTH THE EFFORT. DID I SAY DROUGHT-TOLERANT? GROW IT UTTERLY DRY AFTER ESTABLISHING IT, STAND BACK, AND ENJOY. TO 20X15'.
