

OUR LORD'S CANDLE

HESPEROYUCCA WHIPPLEI

CALIFORNIA NATIVE OUR LORD'S CANDLE IS AN EVERGREEN, DROUGHT-TOLERANT ARCHITECTURAL MOUND OF TIDY, NARROW, BLUE-GREEN BLADES UNTIL IT DECIDES TO BLOOM. WHILE THIS WILL GENERALLY TAKE MANY YEARS, THE SIGHT IS AN AMAZING ONE. THE HUGE FLOWER STALK RISES FROM THE PLANT, GROWING TO AS HIGH AS TEN FEET, PRODUCING INTRICATE CREAM COLORED BLOSSOMS IN PROFUSION. THOUGH SPECTACULAR, WAITING SEVERAL YEARS TO SEE IT IS NOT A BAD THING, BECAUSE THE PLANT WILL DIE AFTER IT FLOWERS. BY THEN, THERE SHOULD BE MANY PUPS TO REPLACE IT. UNIQUE!
