

BLUE FLAX

LINUM PERENNE SPP. LEWISII

.BLUE FLAX IS A NATIVE CALIFORNIA WILDFLOWER PRODUCING STUNNING WIDE-TRUÉE SKY BLUE BLOSSOMS IN PROFUSION OVER A LONG EARLY SEASON. THIS GRACEFUL PLANT LENDS AN AIRY QUALITY TO MEADOWS AND MIXED PLANTINGS, WHERE THE GORGEOUS, SILKY FLOWERS WILL TAKE YOUR BREATH AWAY WHEN BACKLIT. FROM COPIOUS FLOWERS COME COPIOUS SEED

WHICH IS COMPARABLE TO THE FAMILIAR FLAX SEED (LINUM USITATISSIMUM) AND CAN BE EATEN ONCE COOKED, THOUGH YOU MAY PREFER TO LET THE PLANT RESEED TO FILL YOUR GARDEN WITH EVER MORE OF THIS LOVELY WILDFLOWER

ZONES 3-9
