

CALIFORNIA FUCHSIA

ZAUSCHNERIA CALIFORNICA (EPILOBIUM CANUM)

USDA ZONES 7-10

THE VIVID FALL BLOSSOMS OF CALIFORNIA FUCHSIA ARE THE PERFECT COLOR, SHAPE, AND SIZE FOR THE HUMMINGBIRDS THAT PASS THROUGH DURING THEIR MIGRATION SOUTH. JUST WHEN YOU ARE BEGINNING TO THINK THAT BLOOMING IS ABOUT DONE FOR THE YEAR, IT SENDS UP ITS SPICY RED ORANGE BLOOMS LIKE A FLAG TO CATCH THE PASSING EYE OF THE HUNGRY BIRDS. THE GREY-GREEN FOLIAGE STAYS RELIABLY EVERGREEN, ADDING A CERTAIN COOLNESS TO THE GARDEN (THAT IS UNTIL THE SIZZLING BLOSSOMS MAKE THEIR APPEARANCE, OF COURSE!) DROUGHT TOLERANT, TRY TO PLANT THIS ONE SOMEWHERE AT EYE LEVEL TO BETTER ENJOY THE BIRD AND BLOOM SHOW.
